TOTAL HOURS: 67 [70]
TOTAL DEGREE CREDITS: 130 [133]

[1]An overall GPA of 2.5 or better is required. In common computer & information science core courses and the concentration specific courses, a 'C-' or better grade is required.
[4]When selecting courses, be sure the required number of writing, oral, and technology intensives are fulfilled.

Transfer students with an associate degree earned through an articulated major/concentration are required to take two writing, one oral communication and one using information technology intensive courses. You must take these courses at ETSU; transfer credits for courses taken at other institutions do not satisfy the intensive requirements. Your Computer Science advisor at ETSU will help you identify and select these courses.
