

## THE REGISTRATION PROCESS IS CHANGING

**ATTENTION NEW STUDENTS:** If you are new to Pellissippi State for fall 2008, it's essential that you make an appointment to see an advisor and register for classes as soon as possible. Keep in mind that your admission file must be complete prior to making an appointment.

**ATTENTION RETURNING STUDENTS:** If you're a returning student, you need to see your advisor and register for classes before the spring semester is over. Don't wait until August to complete your registration.

**Why?** Meeting with an advisor and registering early guarantees you'll get one-on-one attention without waiting in line. It's a time to get all of your questions answered in a relaxed setting. More important, registering early better ensures that you'll get the class schedule you want.

This is especially important for fall 2008, because the registration process is changing. Starting fall semester—

- The College will implement new registration software.
- **You will be able to add classes and change sections only through Wednesday, August 27.**

You may still drop a class after that date, but you will not be allowed to add a class to replace the dropped one. Worst case scenario: If you drop below full-time status, your financial aid will be affected.

So, remember: **Register early for fall semester to get the classes you want!**

**Important!** Effective fall 2008, you will no longer be permitted to add a course after **Wednesday, August 27**. Make sure your classes are the ones you need, when you need them, before the semester begins.
