QUANTITY FOOD PRODUCTION
HSP 2320

Class Hours: 3.0  Credit Hours: 3.0
Laboratory Hours: 0.0  Revised: July 12, 2016

NOTE: This course is not designed for transfer credit.

Catalog Course Description:
This course is a study and application of principles of quantity food production using institutional equipment and procedures. It includes quantity food planning, procurement and service.

Prerequisite:
HSP 1200

Textbooks and Other Course Materials

I. **Course Goals:**

The course will:

A. Expand student understanding of food production and cooking methods. (I, II, III, IV, VI)

B. Guide students to an understanding of the principles underlying the physical organization of a quantity food production facility. (I, II, III, IV, V, VI)

C. Enhance student understand of the uses of various pieces of food service equipment. (I, III, VI)

D. Enhance effective use of professionally accepted evaluation methods to compare menus to equipment and preparation techniques. (I, III, IV, V, VI)

E. Guide students toward an understanding of food sanitation and nutritional factors vital to quantity food production. (I, II, IV, VI, VII, VIII)

F. Enhance effective use of professionally accepted specifications and purchasing of various foods. (I, II, III, IV, V, VI)

G. Expand student understanding of the basic concepts of kitchen, service, and dining area design including the effects each has on all other components of the quantity food system. (I, II, III, V, VI)

H. Enhance effective use of the major pieces of quantity food production equipment including their uses, critical sanitation and safety factors, as well as purchasing considerations. (I, II, III, IV, VI)

II. **Expected Student Learning Outcomes:**

The student should be able to:

1. Describe the relationship between the menu and all other facets of the food service operation. (A, B, C, D, E, F)

2. Outline the standards for food safety and sanitation. (A, B, E)

3. Translate a recipe into standardized institutional form. (F, G, H)

4. Relate how product, preparation, service and customer flow effect the operation of a food service facility. (A, C, G, H)

5. Explain which pieces of institutional food service equipment would be found in different types of food service operations. (A, B, C, F, G)

6. Demonstrate how specific pieces of equipment operate, are cleaned and sanitized. (C, E, H)

7. Define food grades and specifications for specific menu items. (D, F)

8. Differentiate the types of service methods found in various types of food service operations. (A, G)

9. Differentiate among different types of cooking methods. (A, C, D)

10. Identify the type of food service operation with its respective market segment. (A, G)

11. Discuss the managerial and physical factors involving the receiving of products. (A, B, F)

12. Discuss the pricing and profit models associated with food service menus. (A, F)

13. Explain the nutritional factors that are important in menu engineering. (A, E)

14. Identify various bakery products with their respective production needs. (A, C, F)

15. Explain the different methods of purchasing. (A, F)
16. Discuss the need for and methods of purveyor reviews. (A, F)

III. Evaluation:

A. Testing Procedures:
Students are evaluated primarily on the basis of tests. A minimum of three exams must be given.

B. Laboratory Expectations: N/A

C. Field Work:
Students will be responsible for four written reports. The first will require library research for the purpose of identifying and evaluating institutional food service equipment. The second will involve the standardization of a home recipe to serve 25 people. The third will be a group report designed to evaluate a local restaurant on the basis of menu, flow, equipment, and ability to meet the customer’s desires. The fourth will be an Internet search report concerning current issues with food safety and sanitation.

D. Other Evaluation Methods:
Class participation, group work, attendance, and homework will also comprise the final grade for the course. Each instructor must provide full details the first week of class via a syllabus supplement.

E. Grading Scale:
92 - 100 A
89 - 91 B+
82 - 88 B
79 - 81 C+
72 - 78 C
65 - 71 D
Below 65 F

IV. Policies:

A. Attendance Policy:
Pellissippi State expects students to attend all scheduled instructional activities. As a minimum, students in all courses (excluding distance learning courses) must be present for at least 75 percent of their scheduled class and laboratory meetings in order to receive credit for the course. Individual departments/programs/disciplines, with the approval of the vice president of Academic Affairs, may have requirements that are more stringent. In very specific circumstances, an appeal of the policy may be addressed to the head of the department in which the course was taken. If further action is warranted, the appeal may be addressed to the vice president of Academic Affairs.

B. Academic Dishonesty:
Academic misconduct committed either directly or indirectly by an individual or group is subject to disciplinary action. Prohibited activities include but are not limited to the following practices:
- Cheating, including but not limited to unauthorized assistance from material, people, or devices when taking a test, quiz, or examination; writing papers or reports; solving problems; or completing academic assignments.
- Plagiarism, including but not limited to paraphrasing, summarizing, or directly quoting published or unpublished work of another person, including online or computerized services, without proper documentation of the original source.
- Purchasing or otherwise obtaining prewritten essays, research papers, or materials prepared by another person or agency that sells term papers or other academic materials to be presented as one’s own work.
- Taking an exam for another student.
- Providing others with information and/or answers regarding exams, quizzes, homework or other classroom assignments unless explicitly authorized by the instructor.
- Any of the above occurring within the Web or distance learning environment.

**C. Accommodations for Disabilities:**

Students that need accommodations because of a disability, have emergency medical information to share, or need special arrangements in case the building must be evacuated should inform the instructor immediately, privately after class or in her or his office. Students must present a current accommodation plan from a staff member in Disability Services (DS) in order to receive accommodations in this course. Disability Services (http://www.pstcc.edu/sswd/) may be contacted via email or by visiting Alexander 130.
