Class Hours: 4.0  Credit Hours: 4.0
Laboratory Hours: 0.0  Revised: Fall 2004

Note: This course is designed for transfer credit.

Catalog Course Description:
A presentation of basic economic concepts including supply and demand, competition, money and banking, employment, inflation, and market models. Topics include resource allocation, current economic problems of the U.S., international economics, and the world economy.

Entry Level Standards:
Students must be able to read and write at the college level.

Prerequisites:
N/A

Corequisites:
College-level math

Textbook(s) and Other Course Materials:

Required Supplies: Graph paper for tests and homework assignments
Programmable calculators may not be used on the tests in this course.

I. Week/Unit/Topic Basis:

<table>
<thead>
<tr>
<th>Week</th>
<th>Topic</th>
</tr>
</thead>
</table>
| 1    | The Nature and Method of Economics  
The Economizing Problem |
| 2    | The Market System  
Individual Markets: Demand and Supply |
| 3    | Supply and Demand: Elasticities and Government-Set Prices |
| 4    | Measuring Domestic Output, National Income, and the Price Level |
| 5    | Introduction to Economic Growth and Instability |
| 6    | Basic Macroeconomic Relationships |
The Aggregate Expenditures Model

Aggregate Demand and Aggregate Supply

Fiscal Policy
Deficits, Surpluses, and the Public Debt

Money and Banking

How Banks and Thrifts Create Money
Monetary Policy

The Costs of Production

Pure Competition

Pure Monopoly

Monopolistic Competition and Oligopoly
Antitrust Policy and Regulation

Final Exam

II. Course Objectives*:

A. Demonstrate a complete and thorough understanding of American capitalism, economics of the firm and resource allocation. I, III, IV, IV

B. Exhibit an adequate understanding of national income, employment, and fiscal policy. I, III, IV, VI

C. Demonstrate knowledge of money, monetary policy and economic stability. I, III, IV, VI

D. Explain the basic concepts involved in international economics and the world economy. I, III, IV, VI

E. Acquire the basic rudiments of an economics vocabulary. I

*Roman numerals after course objectives reference goals of the university parallel program.

III. Instructional Processes*:

Students will:

1. Practice elements of the work ethic such as professionalism, preparedness, punctuality, honesty, cooperation, dependability, contribution, effectiveness, and good manners. Communication Outcome, Transitional Strategy, Active Learning Strategy

2. Perform course assignments such as class discussions, experiential exercises, written presentations, Internet research, etc. that help develop critical thinking and problem solving skills. Communication Outcome, Social/Behavioral Sciences Outcome, Technological Literacy Outcome, Transitional Strategy, Active Learning Strategy

3. Use email to communicate problems, questions, and issues to instructor. Communication Outcome, Technological Literacy Outcome

4. Complete a minimum of three written analyses of articles relating to current economic...
Communication Outcome, Social/Behavioral Sciences Outcome

*Strategies and outcomes listed after instructional processes reference TBR’s goals for strengthening general education knowledge and skills, connecting coursework to experiences beyond the classroom, and encouraging students to take active and responsible roles in the educational process.

IV. Expectations for Student Performance*:

Upon successful completion of this course, the student should be able to:

1. Explain how economics is related to scarcity. A,E
2. Explain the difference between positive and normative economics. A,E
3. Identify the 4 factors of production and provide examples. A,E
4. Discuss in detail the production possibilities concept including opportunity cost, law of increasing opportunity cost, and the shifting of the production possibilities frontier. A,E
5. Construct a production possibilities curve. A,E
6. Explain the characteristics of the market system. A,E
7. Identify and explain the Four Fundamental Questions. A,E
8. Define demand and supply, graph demand and supply, and state the law of demand and the law of supply. A,E
9. List the factors that shift demand and supply and determine equilibrium price and quantity. A,E
10. Define and calculate the price elasticity of demand as well as explain the determinants of demand elasticity. A,E
11. Define the term GDP and compute GDP using the expenditure approach when given national income accounting data. B, E
12. Distinguish between nominal GDP and real GDP B, E
13. Define recession, depression, peak, trough, and recovery/expansion. B, E
14. Define full employment and the process used to measure the unemployment rate. B, E
15. Define discouraged workers and underemployment. B, E
17. Define inflation and describe how the CPI is used to measure inflation rates. B, E
19. Define APC, APS, MPC, and MPS. B, E
20. Identify the determinants of investment. B, E
21. Explain how equilibrium output is determined using the simple Keynesian cross. B,E
22. Calculate the spending and tax multipliers and use these to determine the effects of changes in fiscal policy. B,E
23. Define recessionary and inflationary gaps. B,E
24. Define recessionary and inflationary gaps. B,E
25. Define aggregate demand and aggregate supply. B,E
26. Identify the factors that shift the aggregate demand curve. B,E
27. Explain how/when both expansionary and contractionary fiscal policies are used. B,E
28. List the 3 properties of money and explain the meaning of each. C,E
29. Explain what backs the money supply in the U.S. C,E
30. Diagram the money market and determine the equilibrium interest rate. C,E
31. Describe the structure of the U.S. banking system. C,E
32. Compute a bank's required and excess reserves. C,E
33. Calculate the money multiplier. C,E
34. Identify the 3 tools of monetary policy and explain how each may be employed by the Federal Reserve to expand or to contract the money supply. C,E
35. Describe the demand-side transmission mechanism of monetary policy. C,E
36. Explain the effects of budget deficits on the economy. B,E
37. Define economic profit, accounting profit, fixed costs, and variable costs. A,E
38. Explain the law of diminishing returns. A,E
39. Compute and graph AFC, AVC, ATC, and MC when given total cost data. A,E
40. List the causes of economies and diseconomies of scale. A,E
41. List the characteristics of perfect competition. A,E
42. Use the marginal revenue-marginal cost approach to determine output produced in the short run. A,E
43. Define monopoly and explain the conditions under which it arises. A,E
44. Define natural monopoly and the conditions under which it occurs. A,E
45. Define price discrimination and its necessary conditions. A,E
46. Define monopolistic competition and explain how price and output are determined. A,E
47. Define oligopoly and explain why the price might be sticky in an oligopoly industry A,E
48. Explain the major antitrust acts and their applications. A,E
*Letters after performance expectations reference the course objectives listed above.

V. Evaluation:

A. Testing Procedures:

Students are evaluated primarily on the basis of tests. A minimum of three major tests is recommended.

B. Laboratory Expectations:

N/A

C. Field Work:

Students are required to complete a minimum of three written analyses of articles relating to current economic events. Each instructor will provide full details during the first week of class via a syllabus supplement.

D. Other Evaluation Methods:

Class participation and homework will also comprise the final grade for the course. Each instructor will provide full details during the first week of class via a syllabus supplement.

E. Grading Scale:

<table>
<thead>
<tr>
<th>Grade</th>
<th>Percentage</th>
</tr>
</thead>
<tbody>
<tr>
<td>A</td>
<td>92 - 100</td>
</tr>
<tr>
<td>B+</td>
<td>89 - 91</td>
</tr>
<tr>
<td>B</td>
<td>82 - 88</td>
</tr>
<tr>
<td>C+</td>
<td>79 - 81</td>
</tr>
<tr>
<td>C</td>
<td>72 - 78</td>
</tr>
<tr>
<td>D</td>
<td>65 - 71</td>
</tr>
<tr>
<td>F</td>
<td>Below 65</td>
</tr>
</tbody>
</table>

VI. Policies:

A. Attendance Policy:

Pellissippi State Technical Community College expects students to attend all scheduled instructional activities. As a minimum, students in all courses must be present for at least 75 percent of their scheduled class and laboratory meetings in order to receive credit for the course. (*Pellissippi State Catalog*)

B. Academic Dishonesty:

Plagiarism, cheating, and other forms of academic dishonesty are prohibited. Students guilty of academic misconduct, either directly or indirectly through participation or assistance, are immediately responsible to the instructor of the class. In addition to other possible disciplinary sanctions which may be imposed through the regular Pellissippi State procedures as a result of academic misconduct, the instructor has the authority to assign an F or a zero for the exercise or examination or to assign an F in the course. (*Pellissippi State, 2004-2006 Catalog, pages 62-63*)

C. Accommodations for disabilities:

If you need accommodation because of a disability, if you have emergency medical information to share, or if you need special arrangements in case the building must be evacuated, please inform the instructor immediately. Privately after class or in the instructor's office.
To request accommodations students must register with Services for Students with Disabilities: Goins 127 or 131, Phone: (865) 539-7153 or (865) 694-6751 Voice/TDD.

D. Computer Usage Guidelines:

College-owned or –operated computing resources are provided for use by students of Pellissippi State. All students are responsible for the usage of Pellissippi State’s computing resources in an effective, efficient, ethical and lawful manner. (Pellissippi State, 2004-2006 Catalog, pages 67-70)
