NOTE: This course is not designed for transfer credit. It is a “Hybrid” course, which means that about ½ of the class sessions will NOT be on campus. You will instead substitute online sessions at your convenience by first reading this syllabus for your assignment for any specific week and then completing the assignment by reading and completing the quizzes and tests found at http://www.cybercollege.com/.
You will find topics and the URLs for the topics in the “Week/Unit/Topic” section of the syllabus. It is important to keep up-to-date with the assignments. They will be due before the next in-class meeting occurs so that they can be discussed.

Please be aware that the Cybercollege web site changes frequently, so the URLs for specific assignments may change over time. You should still be able to find the module(s) you are looking for by title. Then, notify your instructor so that the syllabus can be updated.
