AGENDA ITEMS DISCUSSED

- I.** Approval of 8/17/01 Minutes
- II.** Upcoming Curriculum Changes
- III.** Current Curriculum Changes – New CSIT Courses (4)

ACTIONS TAKEN

- I.** Minutes were approved as written.
- II.** Berta Ward discussed upcoming curriculum changes. The Automotive Technology and the Chemical/Environmental Engineering Technology programs are being deactivated due to low enrollment. As a result of budget constraints, THEC has placed a freeze on the approval of new programs. Therefore, the Networking and Communication Systems Technology program and the Web Development Technology program approved by TBR last year will be reconfigured until THEC approval for the programs is gained. Three upcoming programs have been placed on indefinite hold: Photography, Security Administration and Technology, and the Associate of Fine Arts degree.
- III.** Four new CSIT courses (CSIT 2445, 2465, 2550, 2880) were approved as a result of CSIT's approved program changes.
- IV.** Since no curriculum changes were received this week, the September 13 meeting was canceled. Members will be notified of the next meeting date.
