

TRiO *Tribune*

March is here, and that means that finals are just around the corner. Make sure to keep on top of your studies and homework by being diligent about attending scheduled tutor sessions, and remember TRiO offers frequent workshops designed to help you study better. Sign up for one today, or ask Tracy or Mark for more information.

Featured Student: Rebecca Walker

What is your major and why did you chose that particular one?

Sound engineering. I've grown up with music all my life, and music is a great passion of mine, so naturally I wanted to do something with music. Back in high school, I started to help my dad with recording his band's music. I enjoyed being a part of the recording, so I started to run sound for bands, school, and local theaters. I've become so entranced with music and recording that sound engineering was the path I wanted to go on.

What do you plan to do after graduation?

After I finish school, I hope to pursue my major and work in a recording studio. I'm hoping one day to open my own studio and start my own record deals and sign bands.

What has been your favorite TRiO event?

I've only been in TRiO for one semester, and so I've only been able to go to the workshops, but I enjoy them a lot because the topics that are covered help me with my college career and life in general.

What are some of your outside hobbies and interests?

I enjoy knitting and crocheting. I love making scarves, hats, blankets, etc. because it allows me to create different ideas and styles with yarn. I also enjoy playing sports when I can. I love to snowboard, play rugby, and occasionally watch football (particularly the Wisconsin Badgers.)
