

CIW Wins “Best Internet Certification” Award

Award Marks Second Consecutive Win

Phoenix, Arizona – December 30, 2004 - ProsoftTraining (NASDAQ: POSO) today announced that its CIW Professional certification won “Best Internet Certification” in the 3rd Annual Readers’ Choice Award survey conducted by CertCities.com, an online magazine for certified Information Technology (IT) professionals. This is the second win in a row for the CIW Professional certification, beating out Macromedia’s Dreamweaver MX Developer certification and CompTIA’s i-Net+ certification.

CertCities.com sent the annual survey to its 30,000 newsletter subscribers in November 2004. The survey asked readers to share their impressions of the best and most valuable certifications for IT professionals.

“Of all the awards CIW has won over the years, we are most proud when it is recognized directly by its end users,” said Benjamin M. Fink, president and CEO of ProsoftTraining. “With the release of CIW v5 Foundations last June and the 2005 release of CIW v5 Site Designer and CIW v5 E-Commerce Designer, we intend to further solidify CIW’s standing as Best Internet Certification. This award is a testament to the hard work of the members of the CIW Advisory Council, who dedicate a significant amount of time to ensure that CIW meets the needs of all stakeholders.”

With more than 75,000 certifications issued to date and more than 900 worldwide authorized partners offering CIW training and education, the CIW program has consistently earned respect as one of the world's leading IT job-role certification programs. CIW is designed under the guidance of the CIW Advisory Council (CIWAC), which includes representatives from leading corporations such as Intel, Hewlett-Packard and American Express, respected academic institutions such as Corinthian Colleges and Mesa Community College, government agencies such as the State of Washington and the State of Utah, and non-profit organizations such as the Education Development Center.

About ProsoftTraining

ProsoftTraining (NASDAQ: POSO) offers content and certifications to enable individuals to develop and validate critical Information and Communications Technology (ICT) workforce skills. Prosoft is a leader in the workforce development arena, working with state and local governments and school districts to provide ICT education solutions for high school and community college students. Prosoft has created and distributes a complete library of classroom and e-learning courses. Prosoft distributes its content through its ComputerPREP division to individuals, schools, colleges, commercial training centers and corporations worldwide. Prosoft owns the CIW job-role certification program for Internet technologies and the CCNT (Certified in Convergent Network Technologies) certification, and manages the CTP (Convergence Technologies Professional) vendor-neutral certification for telecommunications.
