
**ABOUT THE TBR DISTANCE
EDUCATION COMMITTEE**

The TBR Distance Education Committee was created to provide a network of institutional representatives who could address issues of distance education from a System perspective. The Committee consists of representatives appointed by the chief academic officer of each campus.

The Committee is charged with reviewing needs, addressing issues, and making recommendations for intra-system cooperation in the area of distance education. The TBR Distance Education Committee reports to the Academic Affairs Sub-Council.

One major activity of the Distance Education Committee is to foster and disseminate best practices of distance education, and this conference is designed to aid in the dissemination effort. We invite you to join your colleagues and share ideas at the tenth annual distance education conference.
