*American History in Video* provides the largest and richest collection of video available online for the study of American history, now with 2,000 hours and more than 5,000 titles on completion.

The collection allows students and researchers to analyze historical events, and their presentation over time, through **commercial and governmental newsreels, archival footage, public affairs footage, and important documentaries**. This collection is an exclusive collaboration with A&E Television Networks and features some of their most important documentaries and series from The History Channel®, A&E Network®, and Biography®.

These videos include 1526 titles with approximately 528 hours of viewing. Users select which section of video to isolate and can then annotate and save that selection as a playable clip. Clips can be added to playlists or saved separately in My Clips.
