Problems through #8 can be started after completion of 7.2; problems from #12 on can be started after completion of 7.5; #7 and #19 (6 pts each)

7-1  

7-6  
   a. ____________  
   b. ____________  
   c. (i)  
   c. (ii) Explain

7-7  
   a. n = ______________  
   b. ________________  
   c. (i) _____________  
   c. (ii) Explain

7-8  

Is there a significant difference between the percentage who actually voted and the percentage who said they voted? ______ Explain. ____________________________________

7-9  
   \( \bar{x} = \) ____________  
   confidence interval: _______________________________________

7-13  
   a. ______________________  
   b. (i) Y/N  
   b. (ii) Why or why not? _______________________________________

7-14  

7-15  

7-18  
   n = _________  
   \( \bar{x} = \) ____________  
   s = ________________  
   ______ Y/N _______  
   __________________________
   __________________________
7-19  n = __________  \[ \bar{x} = __________ \]  s = ________________

____________________

_____ Y/N _______
